

Location & Installation...

Mother Ivey's Bay is a popular Holiday Park situated near Padstow in Cornwall. With it's own scenic cove and privately owned beach, it was the ideal spot for a coast themed play area. Surrounded by fencing and overlooking the sea, children can play safely, letting their imaginations run wild on the themed play equipment, whilst their parents can relax on the picnic benches and relish the beautiful view.

Location

Like many of our treasured Cornish customers, we believe in supporting local businesses; which is why the majority of our materials are sourced locally. We take great inspiration from our surroundings, often leading to themed play areas which are totally unique to their location.

Installation

The site started off looking like something resembling an archeological dig with piles of locally sourced sand surrounding the freshly built timber play equipment, but it wasn't long before the sand was carefully spread to give the required level of impact absorbing surfacing.

Happy Holidays

Located within a seaside holiday park, the themed play area provides a safe, fun environment, inspiring kids to create their own exciting adventures. With equipment suitable for toddlers to teenagers, it is an ideal spot to release excess energy and make new friends whilst on holiday.

Imagination boosting Role Play...

Mother Ivey's Bay Holiday Park were looking to update their play area in time for the new holiday season in order to give their new and returning customers something fresh, adventurous, exciting and suitable for all ages. The beautiful position of the park, overlooking the sea, made it a perfect opportunity to include themed role play.

'The new play area is a big hit with everyone.'
